CORE SKILLS

- Product Design
- UX/UI Design
- UX Research
- User Flows
- CJM
- Information Architecture
- Interaction Design
- Wireframing
- Prototyping
- Design Systems
- Enterprise UX
- B2B SaaS
- Cybersecurity
- Dashboards
- Data-heavy Interfaces

TOOLS

- Figma
- Miro
- Storybook
- Taiga UI
- Design Tokens
- HTML
- CSS
- Jira
- Slack
- Claude
- ChatGPT
- Cursor
- Codex

LANGUAGES

Russian - Native

English - B2 / Intermediate

SUMMARY

Product Designer / UX/UI Designer with 3+ years of experience designing B2B and B2C digital products, complex web interfaces, high-load systems, and cybersecurity products. Experienced in the full product design cycle: UX research, user flows, customer journey mapping, wireframing, prototyping, UI design, design systems, and handoff to development.

Skilled at transforming technical complexity into clear, scalable, and user-centered product experiences. Experienced in cross-functional collaboration with product managers, analysts, developers, and stakeholders. Actively use AI tools to accelerate research, ideation, prototyping, UX documentation, and design workflows.

PROFESSIONAL EXPERIENCE

Product Designer / AppSec SolutionsSeptember 2024 - March 2026

- Designed high-load B2B cybersecurity products and enterprise-grade web interfaces.
- Owned the full product design process: UX research, user flows, customer journey mapping, wireframes, prototypes, and UI design.
- Created and maintained scalable design systems using Figma, Storybook, Taiga UI, and design tokens.
- Designed custom UI components for complex user scenarios and product logic.
- Improved UX across dashboards, forms, filters, tables, analytical interfaces, and advanced workflows.
- Collaborated with product managers, analysts, and developers throughout the product lifecycle.
- Translated business and technical requirements into clear user scenarios and interface solutions.

UX/UI Designer / Grokhotov StudioJanuary 2023 - December 2024

- Designed interfaces for commercial digital products, web platforms, and client-facing solutions.
- Created wireframes, mockups, interactive prototypes, and high-fidelity UI designs.
- Designed responsive web interfaces for multiple digital products.
- Led redesign initiatives focused on improving user journeys, visual clarity, and usability.
- Maintained and evolved UI kits, design systems, and reusable components.
- Presented design concepts and product logic to clients, stakeholders, product teams, and developers.
- Managed several design streams simultaneously while balancing deadlines, requirements, and delivery quality.

EDUCATION

Google UX Design - UX ResearcherNovember 2025 - February 2026

ITMO University - Master's Degree, Information Security AnalyticsSeptember 2020 - June 2022

Saint Petersburg State University of Aerospace Instrumentation - Bachelor's Degree, Computational LinguisticsSeptember 2014 - June 2018

ADDITIONAL INFORMATION

Interested in B2B, SaaS, cybersecurity, enterprise products, AI-enhanced design, and complex systems with advanced product logic. Strong analytical and technical background helps me quickly understand complex domains and design interfaces that are clear, scalable, and efficient.
